

ANNEX 1

1. **Codes for chemical class**

AM acid amide	OP organophosphorus/organothiophosphorus
AS arsenic compound	OT other
BR bromide	PO phenoxy
CB carbamate	PY pyrethroid
DN dinitrophenol/dinitrophenolate	SN organotin
HC heterocyclic	TC thiocarbamate
HG organomercury	UR urea
OC organochlorine	

2. **Codes for use**

AC acaricide, miticide	IN insecticide
AL algicide	MO molluscicide
AN anthelmintic	NE nematicide
BA bactericide	OT other
CO contaminant	PG plant growth regulator
FM fumigant	RE repellent
FU fungicide	RO rodenticide
HB herbicide	SY synergist
IG insect growth regulator	TE termiticide

3. **Abbreviations**

ARfD	acute reference dose
ADI	acceptable daily intake
CAS Reg. No.	chemical abstracts service registry number
CICAD	concise international chemical assessment document
COND ADI	conditional ADI (no longer allocated to pesticides)
Data sheet	WHO/FAO data sheet on pesticides
DW GLs	WHO guidelines for drinking-water quality
DW GVs	drinking-water guideline values
EHC	environmental health criteria monograph
HSG	health and safety guide
IARC	international agency for research on cancer
ICSC	international chemical safety card
PTDI	provisional tolerable daily intake
Specs	WHO specifications for pesticides used in public health
TEMP ADI	temporary ADI

4. **Information on individual documents** (see Introduction for descriptions of them)

a. Environmental Health Criteria (EHC) monographs

The number refers to the number of the publication in the WHO Environmental Health Criteria series. An asterisk (*) indicates that a synonym rather than the common name is used in the publication. In some cases the EHC publication includes a broader subject area than the listed pesticide. EHC publications are available through the network of WHO Sales Agents or from WHO Marketing and Dissemination. A free catalogue of EHC publications is available upon request from WHO Marketing and Dissemination.

b. Health and Safety Guides (HSGs)

The number refers to the publication number. An asterisk (*) indicates that a synonym rather than the common name is used in the publication. HSGs are available through the network of WHO Sales Agents or from WHO Marketing and Dissemination. The catalogue of EHC publications contains a list of available HSGs.

c. WHO/FAO Data Sheets on Pesticides

An asterisk (*) indicates that a synonym rather than the common name is used to identify the data sheet. Pesticide data sheets are available from the Coordinator, International Programme on Chemical Safety.

d. IARC monographs

The number refers to the number of the publication in the International Agency for Research on Cancer Monograph Series. An asterisk (*) indicates that a synonym rather than the common name is used in the publication. IARC monographs are available through the network of WHO Sales Agents or from WHO Marketing and Dissemination.

e. WHO Guidelines for Drinking-Water Quality

Information on the pesticides identified by an asterisk (*) in the DW GVs (drinking-water guideline values) field are found in *Guidelines for Drinking-water Quality*, third edition, Volume 1, *Recommendations*, World Health Organization, 2004. The publication is available through the network of WHO Sales Agents or from WHO Marketing and Dissemination.

f. Specifications for pesticides used in public health

Information on the pesticides identified by an asterisk (*) in the Specs field are found in *Specifications for pesticides used in public health*. The documents are available on the WHO Pesticide Evaluation Scheme Website (<http://www.who.int/whopes/quality/en/>).

g. International Chemical Safety Cards (ICSCs)

The number refers to the number of the ICSC. An asterisk (*) indicates that a synonym rather than the common name is used in the ICSC. The ICSCs are available on the ILO Website (<http://www.ilo.org/public/english/protection/safework/cis/products/icsc/index.htm>) in many languages.

5. Addresses for obtaining documents and publications
